## WISCONSIN COUNTY, DISTRICT, & STATE FAIRS 2019 ANIMAL HEALTH RULES & REQUIREMENTS

### SUMMARY

If a fair or livestock exhibition lasts more than 24 hours the sponsors must appoint a licensed Veterinarian to conduct a daily inspection of all livestock at the fair or exhibition. The Veterinarian shall review all records and test results required under ATCP 10.87. If a fair or exhibition lasts less than 24 hours, all records or test results required by ATCP 10.87 shall be reviewed by a licensed Veterinarian or by the show chairperson. Records shall include exhibitors name and address, identification of animals exhibited including number, type and description, documentation to show compliance with disease testing and other health requirements, and the livestock premise code, if any, of the premises from which the animals originate. If requested by the fair or show organizer, the documentation showing legal importation (if applicable) and movement to the event. Fair management must maintain these records for 5 years.

This is a summary of DATCP animal health requirements for exhibition only. These requirements may change due to animal disease emergencies in Wisconsin or other states. It is always advisable to check with the Wisconsin Division of Animal Health website or call (608-224-4872) for the most recent health requirements when planning to exhibit animals. Animals meeting exhibition requirements may not meet all import or movement requirements for other purposes. The fair and WDATCP have the right to make such tests and examinations as may be necessary to determine the disease status of any animal exhibited.

Animals that show evidence of having contagious or infectious diseases may not be commingled (housed/kept) with other animals at a fair, show or other exposition in such a way as to allow disease to spread. Such animals should not attend the fair, show or exhibition. Animals may be denied entry if they arrive at these events with contagious or infectious diseases, isolated and/or removed if they develop disease after arriving, or be subject to other action as would be necessary to control disease such as removed immediately, quarantined or slaughtered.

Cattle affected with ringworm, warts, mange or scab may not be exhibited, unless the veterinarian in charge determines the ringworm lesions or warts are inactive and incapable of transmitting the disease. Any cattle found with ringworm, warts, mange or scab that are active shall be removed from the premises of the fair.

## **CATTLE AND BISON**

### **Cattle originating from within Wisconsin**

There are no test or health document requirements for Wisconsin cattle. However, fair management is responsible for maintaining records of persons who have exhibited at the fair, the livestock premises code, if any, and the identification of animals shown for 5 years. Acceptable forms of animal identification for breeding animals are (1) an official metal ear tag, (2) a breed registration number, (3) a breed registration tattoo, (4) other identification approved by the department, or farm ear tag. For steers, either an official ear tag or the identification applied at weigh-in may be used. Entry blanks submitted and signed by exhibitors, including one of the forms of identification listed above will fulfill the exhibitor requirements. The fair's records of animals shown and exhibited are to be retained in case these are needed for disease tracing purposes.

### **Cattle originating from outside Wisconsin**

A Certificate of Veterinary Inspection shall accompany all cattle documenting official animal identification and all tests or certifications required. Animals must have at least one form of official individual ID (including steers). Animals must meet normal Wisconsin requirements for interstate movement. The Wisconsin Division of Animal Health website has current import requirements. Acceptable animal IDs for all cattle from outside Wisconsin are official USDA metal ear tags (NUES) (starts with state 2-digit code, also known as "brite" tag); this includes the orange brucellosis vaccination tag, and AIN 15-digit "840" tags. Manufacturer-coded RFID tag—15-digit number with first three digits in 900s or American ID tag—8 to 12-digit number prefaced with "USA" are valid only if applied before March 11, 2015.

No cattle from outside Wisconsin are currently required to be brucellosis-tested or vaccinate to come to fairs and shows in Wisconsin.
